

A GOLDEN OPPORTUNITY!

SECOND NATIONAL SYMPOSIUM ON ASSESSING GIFTED LEARNERS

*Co-sponsored by Science
Destinations and the Institute for the
Study of Advanced Development*

<http://www.sciencedestinations.org/assessmentsymposium2009.html>

Join the dedicated experts who have been instrumental in the design and investigation of various tools used in the assessment of giftedness. This unprecedented event will provide you with leading edge information on measures of intelligence and creativity, as well as qualitative assessment (QA) techniques. Discover new strategies to increase the identification of minority, ELL, twice exceptional and visual-spatial learners. Become aware of the latest research on the performance of gifted children on the WISC-IV and other measures. Learn about the General Ability Index (GAI), WISC-IV extended norms, group IQ tests, a new instrument for assessing overexcitabilities, and qualitative methods of assessment. A must for psychologists, examiners, program coordinators, administrators, teachers and parents to learn about major breakthroughs in the identification of gifted learners.

Keynote Address

“Intelligence and Creativity: A Father-and-Son’s Perspective on Gifted Assessment”

Alan S. Kaufman and James C. Kaufman

Presenters

Tom Cayton, Frank Falk, Dawn Flanagan, Bobbie Gilman, Alan Kaufman, James Kaufman, Kathi Kearney, Linda Leviton, Betty Maxwell, Nancy Miller, Sylvia Rimm, Annemarie Roeper, Linda Kreger Silverman, John Wasserman.
